

# CARNEROS WINE COMPANY

## The Carneros Appellation

Influenced by the cool afternoon and evening breezes off the Pacific Ocean, and a combination of summer fog, mild days, and a long growing season, the Carneros region was the first wine region in the U.S. created because of its unique terroir, rather than state/county/city political boundaries. The Los Carneros Appellation received its American Viticultural Area (AVA) designation in 1983.
