

FLEUR

PINOT NOIR ROSÉ

We pick the fruit for our Rosé early in the harvest to allow the wine to present a crisp, bright fruit character. Whole grape clusters are gently pressed over an extended period to extract the juice without adding sharp tannins to the wine. Then the juice is sent to ferment in tanks that preserve the beauty of the fruit.

The Fleur Pinot Noir Rosé has floral and freshly picked red fruit aromas. On the palate, a mouthful of fresh strawberry, raspberry, melon, and honeysuckle offer a delightfully juicy and refreshing wine that retains all of the charm of the Pinot Noir fruit that goes into it.

**DOUBLE
GOLD
MEDAL**

The West Coast's preeminent Rosé competition is conducted in a double-blind format and overseen by a panel of esteemed judges.
